E-mail: sales1@hengzhunx.com

Main feature:

- 1, In line with standard 1 # head mold, with a stable support, and simulation of artificial chin combination.
- 2, The helmet dedicated high-precision pressure sensor module connection.
- 3, LED digital display force value of each stage.

Corresponding standard:

GB/T 2812 - 2006 《Helmets test method》 GB/T 2811 - 2007 《Helmet》

Technical parameter:

Helmet mold size	Dimensions conform "GB/T2812-2006 helmet test methods"
Force range	0 ~ 735N
Measurement accuracy	1%
Display accuracy	0.1mm
Time display accuracy	1s
Power supply	AC220V, 50Hz.
