

One exploration company in north China used our HTW/NTW drill rods, HTW/NTW core barrels, NTW/HTW diamond bit in one of their drilling projects in gold prospecting.

The location of the drill site is in Shanxi province. Their aim depth of the hole is 650m, their drill rig capability is 800m in N size. In the whole drilling process. Our drill rods, core barrels, diamond bit and other drilling tools all performed well.

Their manager feed the performance of our products to us and expressed thanks to us
